## A fresh approach to furniture for Secondary Education

Claughtons

## We know you need the best quality furniture for your secondary school on a tight budget. That's why we created the Solo range. It's new and different. It's built to last. It comes with a 5 year guarantee, and it's made to suit you and your students.

Solo isn't just furniture, it's an investment. Because it's made with high quality, hardwearing materials, it's guaranteed to last you years. It's inviting, functional and comfortable at the same time, which helps you get the best out of your staff and students. Our design-led approach makes the most of your space, so you get more for your budget.

So join the growing number of UK schools and academies today who are already benefiting from Solo.

# We work with you from day one. We listen to your ideas, understand your needs and use our 30 years' design experience to deliver the right solution for you.

We put you at the heart of our design process to deliver a solution that's completely in tune with how you work, teach and learn.

## Benefit from over 30 years' design experience

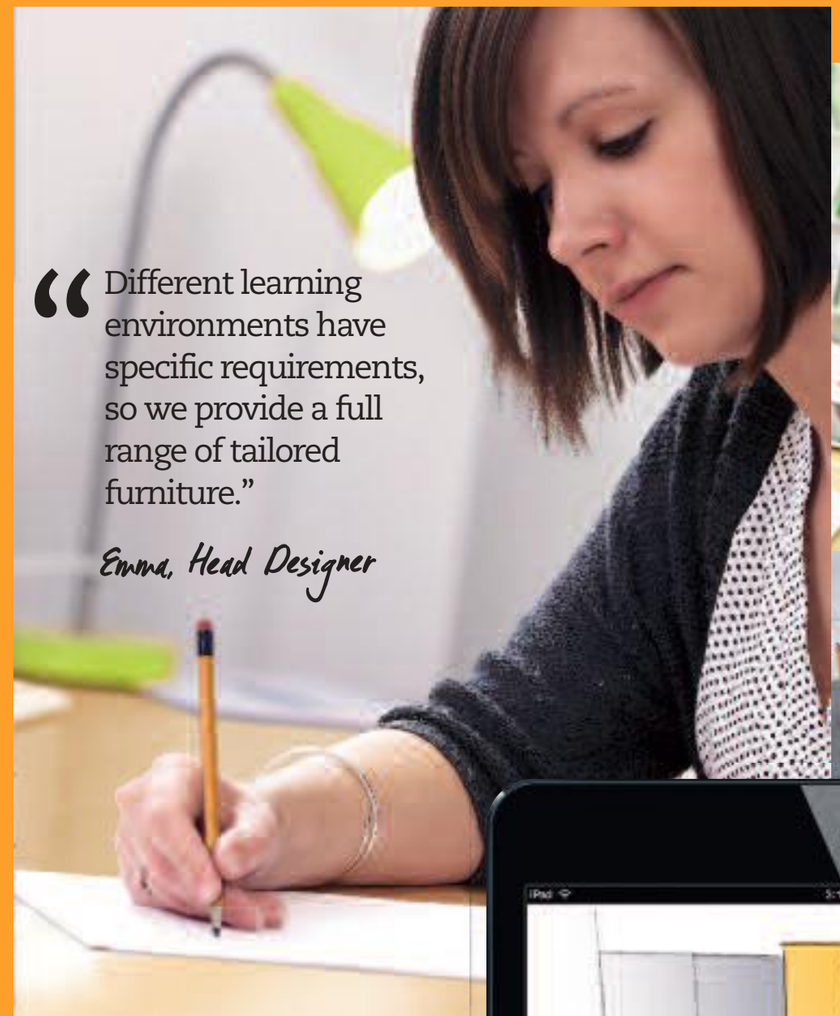
Emma and her design team have more than 30 years' combined experience in spatial design, interior architecture, engineering and construction. So we know how to create furniture that's stylish, practical and tailored to you and your students.

## Preview the end result

Working closely with your brief, we create 2D and 3D plan designs to make it easier for you to imagine how the end result will look in your school.

## Save money by making the most of your space

We put in place a thoughtful, effective space planning strategy and use the latest technology to come up with innovative designs that maximise space and can save you money on unnecessary costs.



"Different learning environments have specific requirements, so we provide a full range of tailored furniture."

*Emma, Head Designer*

# From the initial designs to the delivery and fitting, we take the strain, stress and risk away from you. So you have total peace of mind from start to finish.

## We care about getting it right

Whether you need bespoke furniture or specialist equipment, we'll do our upmost to design, build and source it for you.

## We are an approved supplier on several framework contracts

You can deal with us direct through OJEC-approved framework contracts so the whole process is easy and risk free. We're an approved supplier to the groups and consortiums presented below.

**CPC**
Crescent Purchasing Consortium

**YPO**
Yorkshire Purchasing Consortium

**NPG**
Northern Purchasing Group

# We guarantee the right solution for you and your students on time and without breaking your budget.

Whether we're designing custom-made layouts, supplying furniture or fitting the final touches, we approach every stage of your refurb or re-fit with the same creative flair and attention to detail.

We take your vision, ideas, timeframe and budget into account in everything we do. So you get the right solution at the best price and when you need it.

# Why choose Solo? That's easy. Here are some of the reasons why…

### Our furniture is safe and long-lasting

We design and create Solo to the highest standards, and each piece of furniture is built to withstand day-to-day use in your school. So you can be sure it'll last you for years to come.

### 5 year warranty for extra peace of mind

Because Solo comes with a 5 year guarantee, you can get on with what really matters to you and your school: teaching and learning.

### Make your budget go further

We work with you throughout the design process to make sure your furniture not only meets your needs, but matches your budget.

### Improve your students' ability to learn

Your school environment has a huge impact on how your students behave and learn. By investing in your facilities, you can benefit from better behaviour and attendance figures*, increased student and parent satisfaction, and improved academic progress of up to 25%.

*Based on a seven year study from The University of Salford published in 2012.

## Case Study

**Archbishop Sentamu Academy**
Project: Furniture & Seating

**Complete FF&E bundle for the new £33m Archbishop Sentamu Academy on Preston Road in Hull**

We provided the school with a wide variety of bespoke products including fully fitted ICT suites and science labs, as well as loose furniture, seating and an innovative breakout and resource area. The 10 month project was delivered alongside our client, construction giant Morgan Sindall, under the guidance of the school's staff. We ensured we made the architect's vision a reality.

# We do major projects.

### Want more than just furniture? You're in the right place.

We can design, deliver, fit and finish any turnkey solution.

You can choose from a huge range of furniture, fittings and equipment to help you create unique spaces. As well as our manufactured furniture, we can source modern products from the best names in the industry.

We also offer a full range of sub-contractor services. These include plumbing, electrics, building works, décor services, IT hardware and the latest technologies.

> "The standard of workmanship was superb. This combined with the quality, customer care and after sales service, makes the whole experience with Claughtons outstanding."
>
> Charlotte Davies, Business Manager
> Ribblesdale High School

# Classrooms

## We design, create and fit classrooms that are comfortable, practical and hardwearing; that meet your students' needs, and help you demonstrate best value.

### Get the quality you and your students deserve

Because we build to the highest standards and use industry-leading materials, you get furniture that's guaranteed to meet the demands of today's classrooms.

### Choose your table shapes, storage and accessories

We have a huge range of tables and teacher desks in different shapes and styles to suit the way you teach. We can also supply all the finishing touches, like noticeboards and whiteboards.

### KEY FEATURES

- Our teacher desks are available with storage and cable management to help you keep your classroom looking neat and tidy
- Choose from a wide range of table shapes to suit your needs and your teaching style
- Match your storage units and accessories to your décor

# Teaching Walls

## Make the most of your space, keep your resources neatly stored away and create a focal point for your interactive whiteboards and screens.

### A hub for your whiteboards and screens

We can design your teaching wall to house an interactive whiteboard or screen that connects directly to the teacher's computer.

### Keep your classroom clutter-free

You can organise your teaching resources in trays, pull-out filing or on shelves. You can also lock the doors to keep everything secure.

### Looking for a custom-made solution?

We listen to your ideas, take your needs into account and talk you through all the various design options. Whatever you have in mind, we'll do our best to deliver it.

### KEY FEATURES

- You can lock your storage cabinets to keep your teaching resources and equipment safe
- All the cabinet doors are fitted with concealed 170° hinges to give a wider opening, for easier access.
- Built-in sockets can be hidden away when you're not using them to give a flush, seamless look

### Give better ICT access to your students

We can provide power modules and charging modules for iPads, mobile phones and other accessories. We can also design and supply hot desks and study carrels that allow your students to use their own tech.

# ICT Suites

## Thinking about upgrading your ICT rooms? We work with you to create safe, stylish ICT labs that suit you, your students and your equipment.

### Designed to suit any Mac or PC setup

You tell us what equipment you have – whether you have Mac or PC desktops, towers or laptops – and we design suites that perfectly house it all.

### Keep your equipment safe and tidy

Our wire cable trays, built-in power and data outlets, and removable modesty panels help keep your ICT suites cable and clutter-free. You can also choose from a range of smart storage units, like lockable processor boxes, to keep your equipment secure.

### KEY FEATURES

- We can design furniture to suit both Mac and PC desktops, towers and laptops
- Keep your ICT suite secure and tidy with built-in power and data outlets, lockable processor boxes, removable modesty panels and fixed cable management systems
- Help your students to use their own ICT with hot desks and study carrels equipped with power modules and charging systems

# Science Labs & Prep Rooms

**You get state-of-the-art science labs with all the latest technologies. So your students will have the best possible resources to support their research.**

"We have been designing and manufacturing quality laboratory furniture for more than 20 years. We understand it, enjoy it and we're good at it."

*Emma, Head Designer*

### Make the most of whatever space you have

We design detailed floor plans and create 3D visuals of your labs first. This helps you maximise space and see how the finished lab will look and work.

### Resistant to moisture, scratches, chemicals and bacteria

We fit your spaces with hard-wearing, Trespa work surfaces. So your labs are tough enough to withstand day-to-day use and appropriate for your research.

### We supply all the finishing touches

These include water and gas taps, sinks, safety equipment and both mobile and fixed fume cupboards. We can also install your plumbing, electrics, flooring and décor.

### KEY FEATURES

- All science labs are specified with chemical resistant Vulcathene waste fittings and dilution traps
- Lab tables and sink stations are also available with a DDA height adjustable frame

## Prep Rooms

We design and install Prep Rooms and Store Rooms with flexible storage systems.

These help you keep your equipment and apparatus safe and secure, and move them in to your lab areas when you need to.

# Food Technology

## We design fully equipped, easy-to-clean rooms that give your students plenty of space to learn the practical and theoretical elements of Food Technology.

### Get the most out of your space

We design a detailed floor plan first to help you make the most of your space. Our Food Technology rooms allow enough seating for theory lessons and plenty of room for your students to chop food, roll out pastry, cook and wash up.

### Choose your appliances

Do you want integrated or freestanding? Gas or electric? White, stainless steel or black? You'll find everything you need in our huge range of appliances.

### DDA-compliant workstations

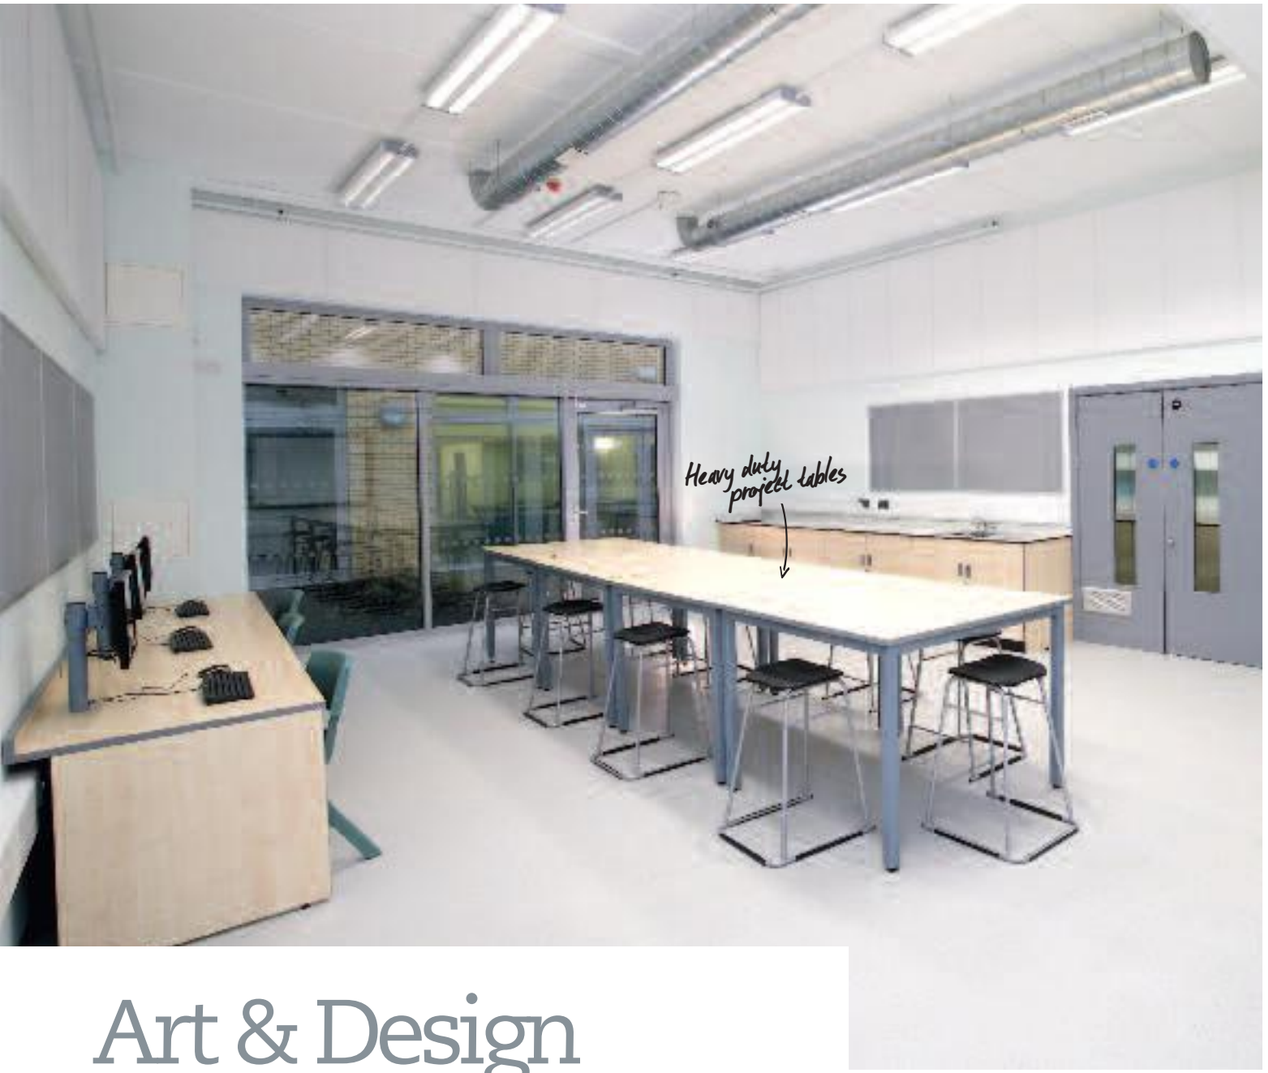
To help you cater for students with disabilities or special needs, we have height-adjustable hobs, sinks and workstations, and a specially designed oven unit for DDA access.

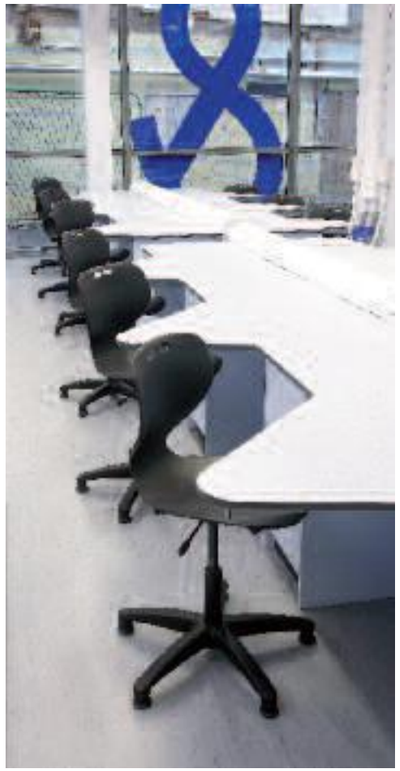
### We can help you with the finishing touches

We can arrange for your plumbing, electrics, flooring and décor to be installed to make life easier for you.

### KEY FEATURES

- Your teacher demonstration desks can be custom-made to suit your needs
- Your students have plenty of space to prepare and cook food, and we give you ample seating for theory lessons





# Art & Design

## You can help to inspire your students' creativity with new, custom-made art and design studios.

### Made to suit the way you teach and learn

Your students need a studio space that encourages their creativity and suits whatever medium they're working with. We design bespoke workshops equipped with hard-wearing furniture and work surfaces that help you make the most of your space and get the best from your students.

### Keep your room clean and clutter-free

With specialist storage for your art materials and fabrics, you can keep your room tidy. We can also install special sinks and clay trays to help you safely clean your clay and art materials.

### We also design ICT, media and reprographics rooms

Whether you use PCs or Macs, we can design media suites, IT hot desks and reprographics rooms to suit how your students work.

### KEY FEATURES

- Store your expensive arts materials safely and keep your studios tidy in handy storage systems
- You can store A1 and A0 paper and portfolios in the large, purpose-built storage units
- We can design benching stations specifically for screen printing, sewing and jewellery making

# Textiles

## Your new studios will have everything your students need to develop their creativity and hone their textiles skills.

### We can design and furnish workshops, studios and ICT suites

We'll work with you to create the right studio space for your staff and students. You can specify cutting tables, storage systems and bespoke furniture to house specialist equipment, such as laser cutters and knitting machines.

### Need the latest IT and equipment?

We can design and supply specialist ICT areas. These can house all the latest ICT hardware and speciality equipment to help your students understand the role of CAD/CAM technology in fashion and design. Whatever you need, we'll work with you to design professional, well-equipped design studios and fashion workshops that house digital garment manufacturing equipment, pattern-cutting software, flat-bed cutting equipment and digital printers.

### Keep your studios tidy and your students' work safe

You can choose from a range of large, purpose-built storage units to store our students' portfolios, projects and materials.

### KEY FEATURES

- We can help you create industry standard workshops housing state-of-the-art facilities
- You can specify pattern cutting tables, benching and dedicated 'wet process' areas
- We can design storage units to house materials, portfolios and fabrics to keep spaces clutter-free

# Resistant Materials

## We make spacious, functional and hardwearing workshops that help your students express their creativity, imagination and practical skills.

### Safe, practical and rock solid workshops

Because of our meticulous design and manufacture process, our workshops are functional, hardwearing and meet the demands of today's educational environments. We use strong beech block for the worktops, and fully welded, heavy duty leg supports on the workstations.

### Get the latest IT, technology and equipment

We work with leading suppliers, including Technology Supplies, so whether you need to house IT hardware or need the latest engineering tools and machinery, we can help source it for you.

### Handy storage units keep everything tidy

We can provide lockable storage areas underneath work benches. We can also fit out storage rooms with cupboards and shelving to help you keep tools and materials safe.

### KEY FEATURES

- We use fully welded, heavy duty metal leg frames on all workstations to give stable support for any high impact work
- You can sand and re-varnish our tough beech block worktops so they last longer
- You can choose to have lockable storage underneath work benches to keep your tools and materials safe and secure

# Dining Areas

## You work hard to provide your students with great service and nutritious food in your cafeteria or restaurants. So why let yourself down with dull, tired dining areas?

### Free up space with foldable dining tables

Are you struggling for space during busy periods? Our folding dining tables help you free up valuable room. When you're done with them, just fold and store them away. Easy.

### Give your students another reason to eat in

We can improve your dining area with bright, funky, modern seating. Or, if you prefer, we can offer a more high quality traditional look.

### Choose from high and low level furniture, bench style seating and fitted furniture

We can provide high breakfast bars and poseur tables, low level coffee and meeting tables. You can choose from bench style and traditional dining tables in all shapes and sizes. We can also design and build matching storage units and counters.

### KEY FEATURES

- Cater for busy periods by specifying folding furniture
- Add interest by specifying furniture at different heights
- Pick seating from a huge range of key suppliers, and choose colours and fabric to suit your décor

Group study area

# Breakout Areas

## Students need somewhere where they can relax, socialise and learn outside of the seminar room. We help you create more inviting social areas that make your budget and space go further.

### We can design bespoke touchdown & breakout spaces

We supply a huge range of soft seating from leading manufacturers. So your students have somewhere comfortable to relax and socialise with friends or catch up on work. We can also add furniture to create 'pockets' of space for group work or individual study.

### Choose from any size, shape and colour of furniture

You can match the colours to your décor, whether you're after more vibrant shades or subtle tones. You can choose any size and shape of furniture to suit your space. You can even rearrange our modular seating whenever you like to create different layouts.

### Cafeteria seating and ICT benching

You can add cafeteria style seating and tables, so your students can enjoy a drink and a snack. You can also choose from fitted high or low level benching or study carrels with extra seating to create study space and room for laptops.

### KEY FEATURES

- Create 'pockets' of space for group work or individual study and add café furniture and access to ICT facilities
- Create flexibility and add interest by opting for modular seating that you can rearrange to create a variety of seating layouts
- Pick any colour and fabric to suit your décor

# Library & Resource Centres

## Facilitate access to ICT and equipment

You can add private study carrels, group work spaces and separate meeting rooms with power and charging facilities into the design. We can also design furniture for fixed ICT facilities (PC or Mac), and printing and copying facilities as part of your fit-out.

## Modern libraries are bright, welcoming and functional. We can help you create a new bespoke library space with book storage systems, access to ICT and breakout spaces.

### Made to suit you

You can choose a modern or more traditional style. Working with you, we'll create unique designs to suit the way you, your staff and your students work. If you need reception counters and administration areas, we can help with that too.

### Give your students somewhere to relax

You may want to provide breakout areas and drop-in spots so your students have comfortable areas to sit, read and study between their seminars and lectures.

### Smart storage units that save you space

We can add shelving and storage units to free up space and keep your book storage areas tidy. You can complement freestanding back-to-back and wall shelving systems with matching low level units, mobile units and book displays.

### KEY FEATURES

- Keep your book storage areas tidy and organised with shelving and storage systems designed around your needs
- Create comfortable, relaxed seating areas where students and staff can read and study in a variety of seating layouts
- We'll help you create an exciting, modern library with access to traditional and computerised research facilities

# Storage Solutions

## Keep your files, resources and materials safe, organised and easy to get to.

### Choose from a huge range of storage units

As well as standalone, built-in and wall-mounted storage units, trays and filing cabinets, we offer storage walls with lateral or suspension filing and display units with standard or sliding doors. You can also choose from tall and low level options depending on your needs.

### Protect your resources

Our safes and lockable tambour units can help keep everything that matters safe and secure.

### Shelving to suit any space

We've a range of shelving to suit any room, from static, open and library shelves to mobile and revolving units.

# Changing & Locker Rooms

## We design and fit hard-wearing changing room furniture that meets DDA, hygiene and Sport England standards. We can also supply and fit locker systems to keep personal effects safe and secure.

### We make use of every inch of available space

We know changing room space is at a premium within your school. So we carefully plan your layout to help you save money on unnecessary costs.

### We help you meet DDA and hygiene standards

To help you cater for students with disabilities or special needs, we offer DDA-compliant changing facilities. You also get expert advice from the start on how to meet hygiene and accessibility standards.

### Long-lasting and resistant to moisture

We use Trespa lats and powder-coated metal frameworks. So your cloakroom furniture protects against water damage and can withstand day-to-day use.

### Tough, anti-bacterial lockers

You can choose steel, shock proof and pod lockers in a range of styles and colours as part of your fit-out. Our steel locker systems are powder-coated with antibacterial DuPont Active-Coat as standard.

### KEY FEATURES

- To help you comply with the DDA, we offer changing facilities for students with disabilities or special needs
- Choose from a range of lockers and storage solutions to help keep your cloakroom neat and tidy

# Staff Resources

## We design comfortable, practical spaces where your staff can relax, unwind and prepare for classes.

### Everything your staff need

With desks, tea points, kitchenettes, soft seating and touchdown areas, your staff will have everything they need to take a much needed break and catch up on lessons planning.

### Want your resources in one place or for each department?

Whatever your approach, we can design, create and fit resource areas to meet your brief.

### Access to ICT can be part of the brief

Create attractive staff work areas with access to fixed ICT or provide workspaces with power and charging units ready for staff to use their own tech.

### KEY FEATURES

- You can choose from a range of filing and storage units
- We can include ICT resources as part of your fit-out
- Our bench workstations come with optional privacy screens and built-in cable management to keep wires tucked away and out of sight

# Receptions

## We'll help you convey the right first impression about your school, and offer a comfortable, functional space for your staff to work in.

Your reception needs to be friendly, welcoming, stylish and comfortable. It needs to convey the right message about your school. We work with you from the start to make sure you get just that.

We can design your new reception to integrate ICT systems, cable management, lighting and storage.

If you need us to make room in the design for your security and monitoring systems, we can do that too.

To help you comply with the DDA, we add multi-level counters to your design. You can also add lockable toughened glass screens as an optional extra for added safety and security.

### KEY FEATURES

- We design your new reception with multi-level counters to help you comply with DDA standards
- Make your reception safer and more secure with optional lockable toughened glass screens
- We can integrate your security and monitoring systems into your design

# Admin Offices

## We can supply, design and fit everything from bespoke conference room tables to glass partitions to help you create a modern, stylish and functional work place for your staff.

### Stylish, long-lasting office furniture

We'll make sure you have everything you need for your admin and office spaces, from conference room tables and chairs to desks, floor coverings, lighting and plasma screens. We can even help you with the decorating, too.

### Create more offices by using glass partitions

Our Interiors team can section off larger rooms with glass partitions to help you get more from your space. This is also a great way to get a modern look and let in more natural light.

### We offer a full design service and turnkey installation

As well as supplying furniture, we can design and build your offices so they're ready for you to use from day one.

# Residential

## Give your students another reason to study at your school. We can supply you with everything you need to create comfy, inviting living spaces.

### You can source everything through us

We can supply everything from bed frames and mattresses to wardrobes, study desks and storage units. We can even fit out your kitchens and we are able to provide a range of white built in or freestanding goods.

### Get furniture that's guaranteed to last

We only and supply furniture made from the best quality materials and we guarantee our manufactured products for 5 years so you know it will stand up to day-to-day use in your school.

### Choose from a huge range of colours and styles

We have a massive range of colours available, whether you're after bright, modern furniture or more traditional styles like our oak range.

### Add built-in charging for your students' accessories

We can supply furniture with integrated charging. So your students can charge their laptops, tablets, smart phones and portable media players in one place.

## Save space with folding dining tables

You can stack them onto trolleys when you're not using them to free up room.

# We know that we can impact on the environment locally, regionally, nationally and even globally. That's why we do all we can to be greener and cut down our footprint.

## How do we help the environment?

- We take great care in choosing the right raw materials and most sustainable production methods
- We cut down on waste, pollution, solvents and material consumption as much as possible during all aspects of our manufacturing process
- We buy from eco-friendly suppliers and source timber products from managed, sustainable forests
- We work to cut down on harmful emissions and transportation fuel
- We comply with all current legislation and continue to address environmental challenges through our commitment to the principle of ISO 14001
- We constantly review and assess our processes as we know how important this is for our neighbours, our customers, our people and society at large
- We promote recycling to our customers and suppliers
- Our corporate ethos is based on doing the right thing

# Claughtons

## Product specification

We've made every effort to make sure that the information in this brochure is correct at the time of going to press. We reserve the right to alter product specification and design without notice.

## Orders and returns

**How do I confirm my order?**
Before we can start to work on your order, please confirm it in writing (preferably in email) with an official purchase order number.

We'll then send you an order confirmation with the prices and product specification. Please make sure you check these details for any errors or anything missing on your order. If there's something not quite right, just give us a quick call or email us to let us know.

**Do I need to sign for my order?**
Yes, we'll ask you to sign for your goods when we deliver them. If you spot any errors, damages or shortfalls with your order, please let us know within three working days.

**Can I cancel my order?**
Yes, you can cancel your order before production has started. But if you cancel after production has started, then we'll have to charge you in full.

**Do you accept returns?**
Yes, if all or part of your order is defective during the warranty period, then you can return it to us and we'll repair or replace it for you.

Please let us know in writing as soon as possible if your order is defective under your warranty and you need to return it.

## Payment

**Payment terms**
Your goods will remain the property of Claughtons until you've paid for them in full. You must adhere to the payment terms that are set out in your contract. If, however, you make any late payments, you may be liable for late payment penalties.

**Customer credit**
For a copy of customer credit terms, please get in touch with our finance department through accountsadmin@claughtons.com or call us on 01482 623952.

## Delivery & installation

**When will my order be delivered?**
This depends on what you've ordered. We'll give you an estimated delivery date when you order.

We stick to the delivery dates we quote wherever possible. But, sometimes, things out of our control can affect when you get your goods. Please note that we're not responsible for any unforeseen circumstances that delay your order.

Each delivery and installation will be co-ordinated by a project manager, who'll work with you to plan the schedule of onsite works. They'll also be responsible for supplying you with risk assessments, data care manuals and any other information you ask for.

**How much do you charge for delivery and installation?**
This depends on each individual order. We'll agree your delivery and installation charges with you when you place your order.

## 5 year warranty

Once your installation is complete and everything's been approved, we give you a 5 year warranty against manufacturing defects for total peace of mind.

Please note that other suppliers' warranties may differ. To find out more, call us on 01482 323235 or email info@claughtons.com.
