Cloughtons

Welcome to Claughtons

Claughtons designs, manufactures and installs innovative, robust and practical furniture solutions

Claughtons is a leading furniture designer and manufacturer, with over 40 years' experience of providing bespoke furniture solutions to the public and private sectors nationwide.

We pride ourselves on using the best materials to give you a practical and robust working or learning environment that looks great year on year.

All of our solutions are design led, innovative and durable. We add value by providing additional installation, integration and complimentary services including space planning, mechanical and electrical and other services.

At Claughtons we ensure that all of our processes are compliant with the relevant British and International standards.

All of our materials are sourced from relevant quality-approved suppliers, and include FSC (Forestry Stewardship Council) suppliers where appropriate.

Turning your ideas into reality

Design and consultancy services

Claughtons' expert designers are skilled at turning our clients' ideas into reality. Whether you want a full fit-out, refurbishment or advice and guidance on enhancing your existing room, we can help. We will visit you to discuss your vision for your furniture solution, so that we can really understand your requirements.

Our design consultants will advise on the best designs, colour schemes, materials and finishes to ensure you get the solution you want. Our in-house design and manufacturing capability enables us to produce innovative and robust designs, giving you that truly unique furniture solution.

Project management

Our team of experts have managed thousands of major projects, from the initial concept, to the sales process, manufacture and installation, and finally to the on-site completion and sign-off. Our considerable experience means that we're comfortable with the planning, monitoring and control of all aspects of your project, including project managing third party suppliers or sub-contractors.

We pride ourselves on delivering a great service which means you get your high quality furniture solution on time, and on budget.

Creating an effective learning environment

Cloughtons provides bespoke furniture solutions for schools and higher education. We get involved in many projects from designing, manufacturing and installing single furniture units to refurbishing a classroom or whole department.

We offer turnkey projects, assigning a dedicated account manager who handles all aspects of your fit-out from planning to completion; and if you require ancillary building works and mechanical and electrical provision as part of your solution, we can easily accommodate this.

We help you to demonstrate Best Value for by providing high quality furniture at a competitive price.

Food technology classrooms

We can design, manufacture and install a bespoke furniture solution that helps you achieve the requirements of the Food Technology syllabus and provides students and teachers with a safe, clean and effective food technology classroom.

We source specialist food preparation equipment, use hygienic and heat resistant Trespa work surfaces and can install water, power and data outlets.

Science laboratories

Our bespoke science laboratory furniture solutions can include:

- Laboratory tables lockable storage, tray units and fume cupboards
- Heat and chemical resistant Trespa work surfaces
- Specialist gas, water, power and data outlets
- Ventilation and fume extraction

ICT suites

Our expert team has designed and installed many ICT suites and are innovative in maximising space. Cloughtons' solutions are bespoke and include tamper-proof, lockable storage cabinets for PCs and hide wires and plugs from sight. We provide a range of seating plans including perimeter benching and circular, hexagonal and octagonal pods.

Libraries and resource centres

Cloughtons' high quality and robust furniture for libraries can incorporate library shelving, storage, desking and seating areas, study booths, ICT areas, administration areas, issue desks and interactive technologies.

Call us on 01482 323 235

www.cloughtons.com

“ Our ICT suite furniture solution is of great quality; your materials and workmanship are excellent. I have also been really impressed with your customer care and responsiveness to our needs. ”

Steve Wild,
Handworth Grange School

Building Schools for the Future

Cloughtons has considerable experience and a proven track record of assisting Local Authorities and Prime Contractors deliver innovative and integrated learning and teaching solutions that include the following:

- Innovative design for flexible learning and teaching whilst maximizing space requirements
- High quality, practical and robust construction
- Modern and aesthetically pleasing furniture solutions
- Significant experience of working as part of a team to agreed timescales and budgets

Higher Education

We design and manufacture ICT resource centres for student areas or teaching facilities, science laboratories and administration areas for higher education establishments.

We will project manage your solution from start to finish, liaising and directing the supply chain (including water & gas provision, ventilation, and power & data) to ensure the project meets time and cost deadlines.

Our in-house design team can support the Estates and Individual Faculty departments, with 2D / AutoCad and 3D presentations.

We don't just provide furniture, we do it all:

- Air conditioning
- Blinds
- CCTV
- Décor
- Floor coverings & carpets
- ICT hardware & interactive technologies
- Lighting
- Partitioned walls / screens
- Plumbing
- Power & data installations
- Project management
- Sound proofing
- Suspended ceilings

The ideal working environment

Claughtons specialises in the design, manufacture and installation of office furniture for different workspaces.

We can provide stand-alone units or a full fit-out for receptions, boardrooms, meeting rooms and offices, incorporating desking, seating and storage.

We're happy to source IT equipment and interactive technologies as part of your office furniture solution, and we can easily accommodate ancillary building works and mechanical and electrical provision if required.

Boardroom and meeting room furniture

We understand that your board room or meeting room furniture needs to be practical and durable, as well as looking good. We are experts at turning our clients' ideas into reality and offer guidance on:

- Board room furniture design & layout
- Colour schemes and lighting
- Seating
- Materials & finishes

We integrate technology, such as plasma screens and video conferencing seamlessly into our designs, and if you require cabling, air conditioning or décor services, we can help.

Office furniture

A pleasant working environment often means increased productivity; we can tailor our office furniture design to meet your needs including:

- Wave desking
- Ergonomic seating
- Partitioning
- Storage solutions
- Integration of technology

Desking and seating

Claughtons can provide individual desk units or desking as part of a full fit-out, including:

- High quality, practical and robust construction
- Flexible, modern and space efficient desking
- Standard, wave and bespoke desk design
- Panel-ended or cantilever construction
- Fixed or height-adjustable

Our seating solutions have a strong focus on ergonomic excellence, comfort and innovative design. Our wide range of seating is available in a range of colours, fabrics and frame types.

“ Cloughtons come highly recommended! Everything was delivered on time and fully installed in the correct locations with the minimum of disruption, and communication with our main contractor was second to none. ”
Martin Haldenby
Gosschalks

Reception and administration offices

First impressions count, which is why it's important that your reception furniture conveys the right message about your organisation. Whether you want a contemporary or traditional reception furniture solution, we can provide you with a welcoming but practical and efficient working environment. Cloughtons can provide a full fit-out incorporating:

- Desking and seating
- Floor coverings
- Lighting
- Interactive technologies such as plasma screens
- Decoration services

Storage; the no-clutter solution

The paperless office is still far from reality so help keep your work space tidy with our efficient and secure storage solutions including:

- Storage walls with lateral / suspension filing
- Static, mobile and revolving shelving
- Low level storage and open shelving
- Wall mounted storage units and tall storage
- Display units with standard or sliding doors
- Filing cabinets / storage trays
- Safes and lockers

Contract furniture

Cloughtons provides furnishing solutions for the hospitality and leisure industries. We work with architects and designers to deliver innovative and bespoke furniture to hotels, restaurants and bar operators, from the initial concept through to delivery and installation.

We pride ourselves on offering variety, which is why our clients can choose from a huge range of traditional or contemporary fabrics, leathers and colours. We provide a comprehensive range of quality indoor and outdoor furniture, including bistro and café furniture, seating and tables.

Unlike other furniture companies, we do everything:

- Air conditioning
- Blinds
- CCTV
- Décor
- Floor coverings & carpets
- ICT hardware & interactive technologies
- Lighting
- Partitioned walls / screens
- Plumbing
- Power & data installations
- Project management
- Sound proofing
- Suspended ceilings

Installation services

Décor and alterations

Our expert team can provide guidance on décor and will undertake any necessary alterations or minor building works to help you achieve the desired look and feel for your workspace or learning environment.

As part of a full fit-out or refurbishment we can make good holes in walls, block doorways and remove stoothing walls, amongst other non-structural works such as ceiling repair. We can help if you require power and data cabling or air conditioning, plumbing, heating and gas.

Our team can also incorporate partitioning and wall storage in addition to designing and sourcing lighting and providing guidance on colour schemes, window design, and wall and floor coverings.

Power and data cabling

Cloughtons has considerable experience in providing the design, installation and deployment of innovative power, network infrastructure, communication and AV display solutions within our furniture solutions. The services we offer include:

- Power and data network design
- Installation, moves, adds and changes (MACs)
- Electrical maintenance
- Lighting design and installation

Air conditioning, plumbing, heating and gas

Cloughtons can supply, install, service and maintain a wide range of plumbing, heating and cooling equipment. We have managed many commercial and educational solutions.

We understand that modern working environments need to be efficient and comfortable, and we are able to provide recommendations to fit your needs.

- Classroom ceiling or cassette air-conditioning systems
- IT server room cooling solutions
- Laboratory and food technology solutions that include sink, waste, water and gas solutions
- Ventilation, fume extraction and heating

IP CCTV surveillance

We supply IP CCTV solutions to commercial and public sector organisations, in particular schools, to help create a safer environment for pupils, employees, customers and suppliers.

Our IP CCTV solution allows you to transmit CCTV images over your IT network infrastructure, using IP addressable cameras and servers. It can be accessed from anywhere with an Internet connection via a login.
