**A fresh approach
to furniture
for Higher
Education**

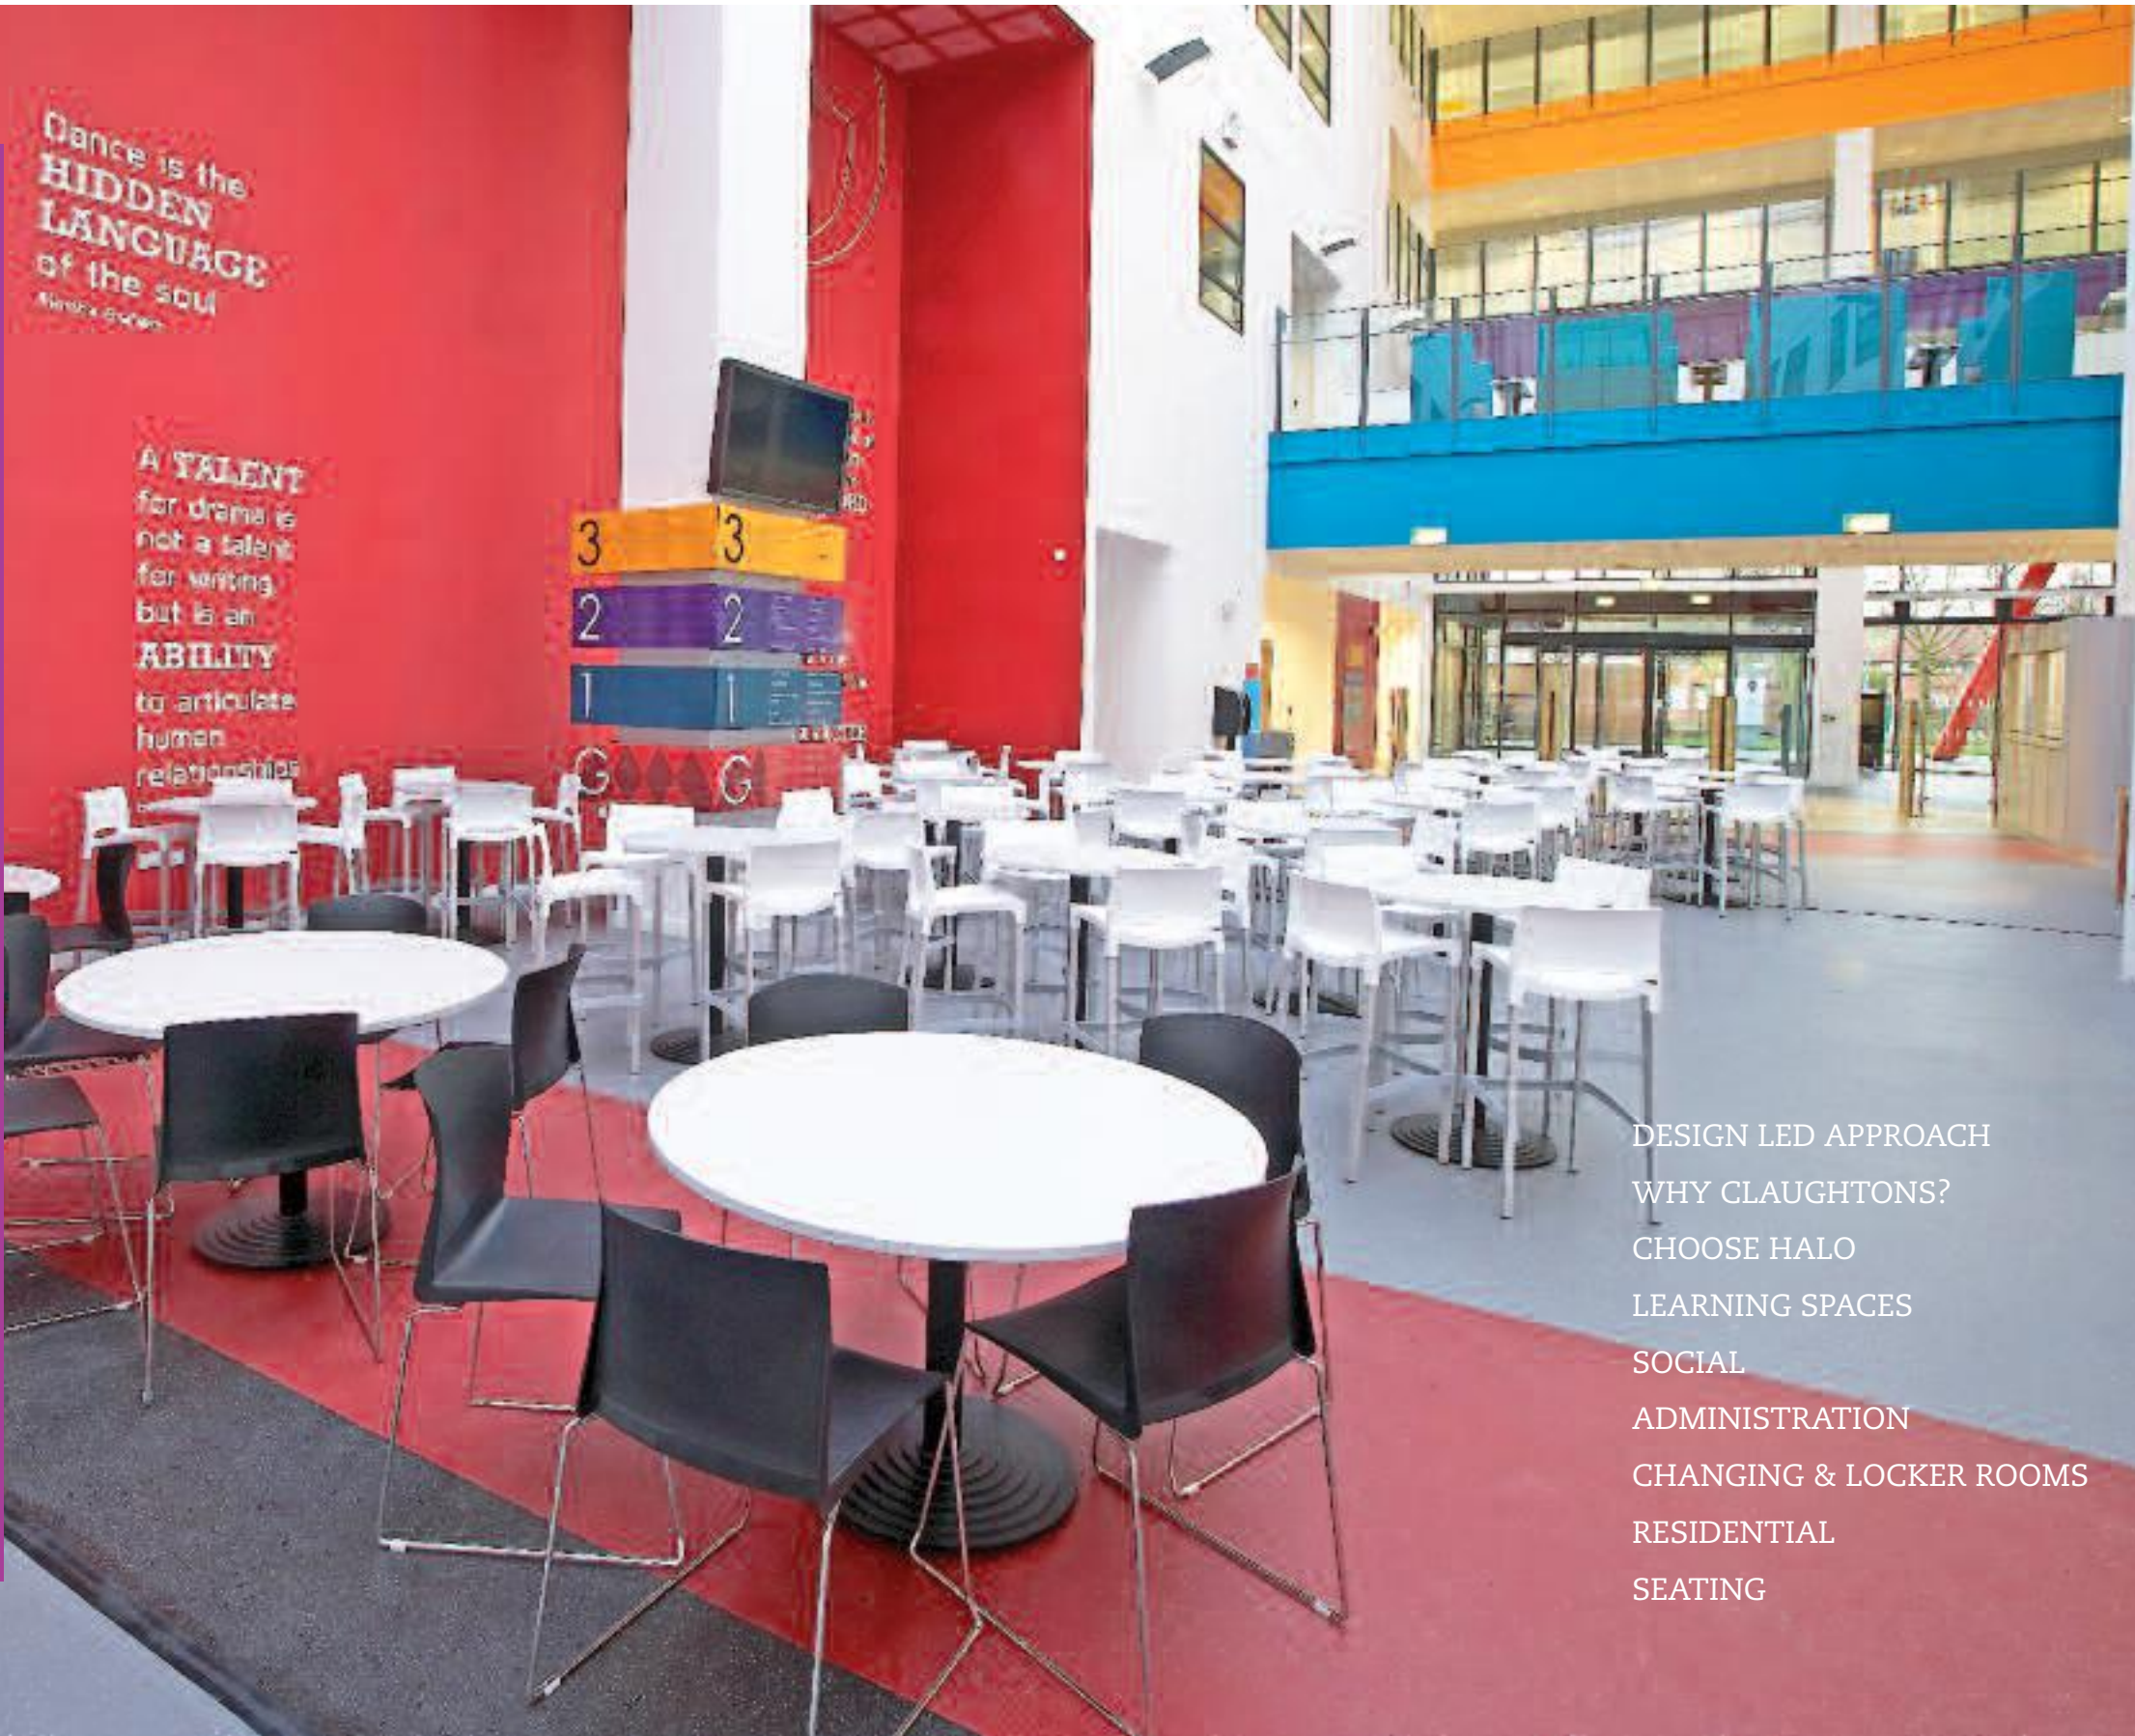

Cloughtons

We know you need high quality furniture for your college or university on a tight budget. That's why we created the Halo range. It's new and different. It's made to last. It comes with a 5 year guarantee, and it's built specially to suit you and your students.

Halo isn't just furniture, it's an investment. Because it's made with high quality, hard-wearing materials, it's guaranteed to last you years. It's inviting, functional and comfortable, which helps you get the best out of your staff and students. It makes the most of your space, so you get more for your budget.

We understand you need to show you're getting best value. When you choose us, you work with an approved supplier to many purchasing groups and consortiums. So join the growing number of UK colleges and universities today who are already benefiting from Halo.

How do we work with you?

First, we get to know your needs and goals. We listen to your ideas and work with you to plan the designs. Then we use our expertise to build and fit furniture that's completely in tune with how you work, teach and learn.

You gain from our design-led approach

Emma and her design team have over 30 years' combined experience in spatial design, interior architecture, engineering and construction. So we know how to create furniture that's stylish, practical and tailored to your staff and students.

Preview the end result

Working with your brief, we create 2D and 3D plan designs to make it easier for you to imagine what the finished project will look like. Our CAD systems link to our machines, so we manufacture exactly what you see in the design drawings.

“Different learning environments have specific requirements, so we provide a full range of tailored furniture.”

Emma, Head Designer

Save money by making the most of your space

We put in place a thoughtful, effective space planning strategy and use the latest technology to create innovative designs that maximise space and reduce costs.

From the initial designs to the delivery and fitting, we take the strain, stress and risk away from you. So you have total peace of mind from start to finish.

We care about getting it right

Whether you need bespoke furniture or specialist equipment, we'll do our utmost to design, build and source it for you.

We are an approved supplier on several framework contracts

You can deal with us direct through OJEC-approved framework contracts so the whole process is easy and risk free. We're an approved supplier to the groups and consortiums presented below.

You get the highest quality furniture on time and without breaking your budget.

Best quality, guaranteed

We approach every stage of your project with the same attention to detail. Whether we're designing your furniture and layouts or fitting the final touches.

On time and within budget

The Halo range is the product of years of research and consultation with colleges and universities. So we know what works for you and why.

Why choose Halo? That's easy. Here are some of the reasons why...

**You get tough,
practical,
fit-for-purpose
furniture**

We use the highest quality materials and build your furniture to withstand day-to-day use in colleges and universities. So it's guaranteed to last you for years to come.

**Your project is
managed from
start to finish**

One of our project managers will oversee your project and work with you to plan the delivery and installation. A team leader will work with you onsite to make sure everything runs smoothly.

**You get a 5 year
warranty for
extra peace of
mind**

So you can order your furniture worry-free and get on with what really matters to you.

**You join a
growing number
of happy clients**

See our Case Studies and Testimonials over on claughtons.com to find out more about why people choose us.

Case Study

St. Mary's College (SMC)

St. Mary's College (SMC) recently completed phase one of a major £19.5m project to remodel and refurbishing their existing building to provide a brand new, state-of-the-art sixth form area that will provide places for over 350 students.

By meeting with SMC, listening to their ideas and working together to plan possible interior designs, Claughtons were able to come up with concepts that really suited their staff and students. Working alongside the project's architects Capita Symonds, and construction firm, Morgan Sindall, we helped to plan and create the new sixth form building, SM6.

The aim for SM6 was to provide University standard facilities for its Sixth Form students, as David Claughton, Director at Claughtons, explains: "St. Mary's wanted SM6 to be a sophisticated and relaxed environment. The ground floor was designed to be a drop-in learning space for students to both socialise and work on their portable devices outside of the seminar room. This area also incorporates a media wall, library, soft seating, benches at different working heights and an SM6 bistro area where students can relax with a coffee between lectures."

SM6 also features state-of-the-art, specialist student accommodation. The entire first floor is dedicated to science, and each lab has a unique blend of theory and practical learning areas with bespoke workstations that are fully serviced for all types of experimentation. There's an integrated creative arts, design and technology area that has been developed to industry standards, including jewellery making equipment, laser cutters, digital embroidery and Mac design suites.

Sophie Teasdale, Director of Operations at SMC, comments "We had a very clear vision for our brand new SM6 building, and it was crucial that we worked with a company who could translate that through the furniture design. Claughtons were involved at a very early stage and worked closely with all the relevant departments to understand their requirements. We are absolutely thrilled with the end result and the standard of the products and workmanship. We are keen to continue to work in partnership with Claughtons as we develop other areas of our site."

**You can hire us for
major, bespoke projects.**

**Need more than just
furniture? You're in the
right place**

We can design, deliver, fit and finish any turnkey project. You can choose from our huge range of furniture, fittings and equipment. You can also source modern products from the best names in the industry through us.

We also offer a full range of sub-contractor services like plumbing, electrics, minor building works, décor services and IT hardware.

“From the outset, Claughtons understood what was needed. It was easy to form an effective and friendly relationship as staff were knowledgeable in their field, understood the brief and were always efficient and prompt with the delivery of the products. Genuinely, we couldn't have asked for more.”

THE UNIVERSITY OF SHEFFIELD
David Beaumont DAB Contract Services Ltd

Modular tables

Seminar & tutorial rooms

Our seminar and tutorial rooms are comfortable, practical and hard-wearing. They meet your students' needs and help you make the best of your space and budget.

Get the quality you and your students deserve

We build to the highest standards and use industry-leading materials. So you get furniture that's guaranteed to meet the demands of today's colleges and universities.

Choose your table shapes, storage and accessories

We have a huge range of seating, tables and desks in different shapes and styles to suit your décor and layout. We can also supply all the finishing touches, like fitted storage, shelving, noticeboards, accessories whiteboards, and ICT equipment.

KEY FEATURES

- Match your storage units and accessories to your décor
- Choose from a wide range of table and desk shapes
- A huge range of soft seating as well as task and operators chairs is available from leading suppliers

ICT laboratories

Thinking about upgrading your ICT rooms? We work with you to create safe, stylish ICT labs that suit you, your students and your equipment.

Designed to suit any Mac or PC setup

You tell us what equipment you have – whether you have Mac or PC desktops, towers or laptops – and we design suites that perfectly house it all.

Keep your equipment safe and tidy

Our wire cable trays, built-in power and data outlets, and removable modesty panels help keep your ICT suites cable and clutter-free. You can also choose from a range of smart storage units, like lockable processor boxes, to keep your equipment secure.

Give better ICT access to your students

We can provide power modules and charging modules for iPads, mobile phones and other accessories. We can also design and supply hot desks and study carrels that allow your students to use their own tech.

KEY FEATURES

- We can design furniture to suit both Mac and PC desktops, towers and laptops
- Keep your ICT suite secure and tidy with built-in power and data outlets, lockable processor boxes, removable modesty panels and fixed cable management systems
- Help your students to use their own ICT with hot desks and study carrels equipped with power modules and charging systems

Science Labs & Prep Rooms

You get state-of-the-art science labs with all the latest technologies. So your students will have the best possible resources to support their research.

“ We have been designing and manufacturing quality laboratory furniture for more than 20 years. We understand it, enjoy it and we’re good at it.”
Emma, Head Designer

Make the most of whatever space you have

We design detailed floor plans and create 3D visuals of your labs first. This helps you maximise space and see how the finished lab will look and work.

Resistant to moisture, scratches, chemicals and bacteria

We fit your spaces with hard-wearing, Trespa work surfaces. So your labs are tough enough to withstand day-to-day use and appropriate for your research.

We supply all the finishing touches

These include water and gas taps, sinks, safety equipment and both mobile and fixed fume cupboards. We can also install your plumbing, electrics, flooring and décor.

KEY FEATURES

- All science labs are specified with chemical resistant Vulcathene waste fittings and dilution traps
- Lab tables and sink stations are also available with a DDA height adjustable frame

Prep Rooms

We design and install Prep Rooms and Store Rooms with flexible storage systems.

These help you keep your equipment and apparatus safe and secure, and move them in to your lab areas when you need to.

Art & Design

You can help to inspire your students' creativity with new, custom-made art and design studios.

Made to suit the way you teach and learn

Your students need a studio space that encourages their creativity and suits whatever medium they're working with. We design bespoke workshops equipped with hard-wearing furniture and work surfaces that help you make the most of your space and get the best from your students.

Keep your room clean and clutter-free

With specialist storage for your art materials and fabrics, you can keep your room tidy. We can also install special sinks and clay trays to help you safely clean your clay and art materials.

We also design ICT, media and reprographics rooms

Whether you use PCs or Macs, we can design media suites, IT hot desks and reprographics rooms to suit how your students work.

KEY FEATURES

- Store your expensive arts materials safely and keep your studios tidy in handy storage systems
- You can store A1 and A0 paper and portfolios in the large, purpose-built storage units
- We can design benching stations specifically for screen printing, sewing and jewellery making

Need the latest IT and equipment?

We can design and supply specialist ICT areas. These can house all the latest ICT hardware and speciality equipment to help your students understand the role of CAD/CAM technology in fashion and design. Whatever you need, we'll work with you to design professional, well-equipped design studios and fashion workshops that house digital garment manufacturing equipment, pattern-cutting software, flat-bed cutting equipment and digital printers.

Keep your studios tidy and your students' work safe

You can choose from a range of large, purpose-built storage units to store our students' portfolios, projects and materials.

Fashion & Design

Your new studios will have everything your students need to develop their creativity and hone their skills to take their first steps into careers in fashion and design.

We can design and furnish workshops, studios and ICT suites

We'll work with you to create the right studio space for your staff and students. You can specify cutting tables, storage systems and bespoke furniture to house specialist equipment, such as laser cutters and knitting machines.

KEY FEATURES

- We can help you create industry standard workshops housing state-of-the-art facilities
- You can specify pattern cutting tables, benching and dedicated 'wet process' areas
- We can design storage units to house materials, portfolios and fabrics to keep spaces clutter-free

Engineering

Heavy-duty Worktop

We'll help you get the best from your students and prepare them for a career in engineering.

We can design a space for any engineering course

Whether it's a state-of-the-art ICT suite to house computer equipment to study Structural Engineering; or a well-equipped workshop for Engineering and Materials Fabrication; or a studio for Design and Innovation, we can help.

Get the latest IT, technology and equipment

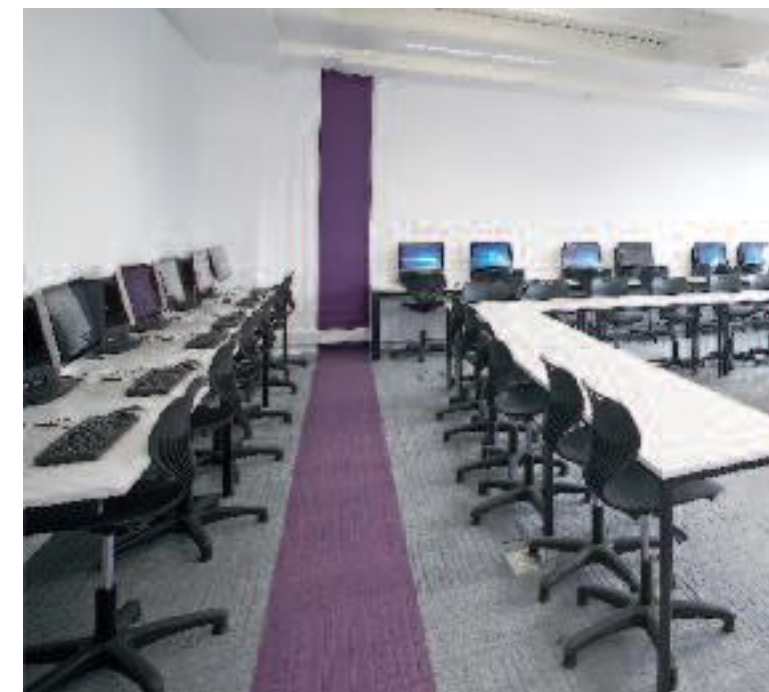

We work with leading suppliers, including Technology Supplies, so whether you need to house IT hardware or need the latest engineering tools and machinery, we can help source it for you.

Practical, rock solid workshops

We specify robust worktops and fully-welded, heavy duty leg supports for benching and workstations. So you know they're practical, usable and long-lasting.

Handy storage units keep everything tidy

We can provide lockable storage areas underneath work benches. We can also fit out storage rooms with cupboards and shelving to help you keep tools and materials safe.

KEY FEATURES

- We use fully welded, heavy duty metal leg frames on all workstations to give stable support for any high impact work
- You can sand and re-varnish our tough beech block worktops so they last longer
- You can choose to have lockable storage underneath work benches to keep your tools and materials safe and secure

Breakout Areas

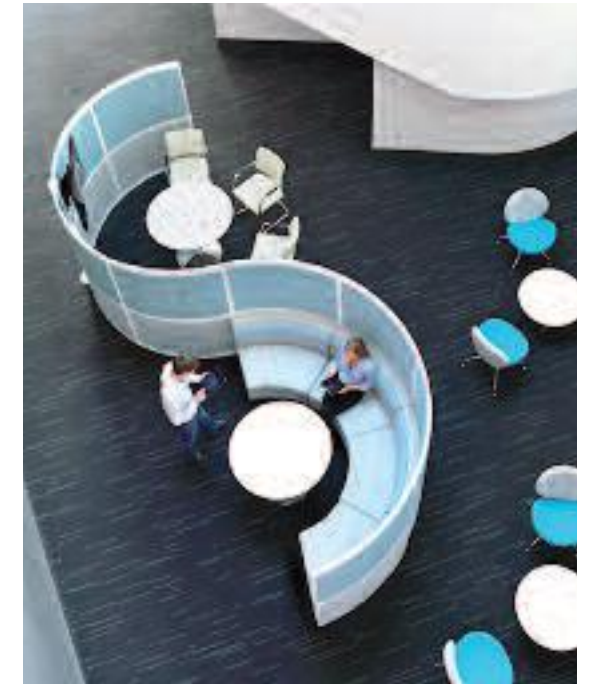

Students need somewhere where they can relax, socialise and learn outside of the seminar room. We help you create more inviting social areas that make your budget and space go further.

We can design bespoke touchdown & breakout spaces

We supply a huge range of soft seating from leading manufacturers. So your students have somewhere comfortable to relax and socialise with friends or catch up on work. We can also add furniture to create 'pockets' of space for group work or individual study.

Choose from any size, shape and colour of furniture

You can match the colours to your décor, whether you're after more vibrant shades or subtle tones. You can choose any size and shape of furniture to suit your space. You can even rearrange our modular seating whenever you like to create different layouts.

Cafeteria seating and ICT benching

You can add cafeteria style seating and tables, so your students can enjoy a drink and a snack. You can also choose from fitted high or low level benching or study carrels with extra seating to create study space and room for laptops.

KEY FEATURES

- Create 'pockets' of space for group work or individual study and add café furniture and access to ICT facilities
- Create flexibility and add interest by opting for modular seating that you can rearrange to create a variety of seating layouts
- Pick any colour and fabric to suit your décor

Dining Areas

You work hard to provide your students with great service and nutritious food in your cafés and restaurants. So why let yourself down with dull, tired dining areas?

Give your students another reason to eat in

Whether you're after a café or restaurant, a traditional look or a modern bistro style, we help you create comfy, inviting dining spaces.

We can improve your dining area with bright, funky, modern seating. Or, if you prefer, we can offer a more high quality traditional look.

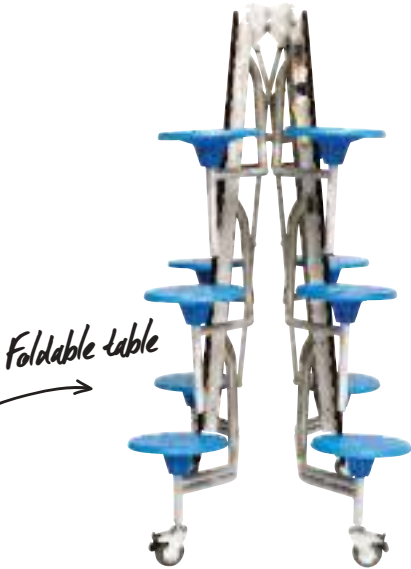

Choose from high and low level furniture, bench style seating and fitted furniture

We can provide high breakfast bars and poseur tables, low level coffee and meeting tables. You can choose from bench style and traditional dining tables in all shapes and sizes. We can also design and build matching storage units and counters.

Free up space with foldable dining tables

Are you struggling for space during busy periods? Our folding dining tables help you free up valuable room. When you're done with them, just fold and store them away. Easy.

KEY FEATURES

- Cater for busy periods by specifying folding furniture
- Add interest by specifying furniture at different heights
- Pick seating from a huge range of key suppliers, and choose colours and fabric to suit your décor

Library & Resource Centres

Modern libraries are bright, welcoming and functional. We can help you create a new bespoke library space with book storage systems, access to ICT and breakout spaces.

Made to suit you

You can choose a modern or more traditional style. Working with you, we'll create unique designs to suit the way you, your staff and your students work. If you need reception counters and administration areas, we can help with that too.

Give your students somewhere to relax

You may want to provide breakout areas and drop-in spots so your students have comfortable areas to sit, read and study between their seminars and lectures.

Smart storage units that save you space

We can add shelving and storage units to free up space and keep your book storage areas tidy. You can complement freestanding back-to-back and wall shelving systems with matching low level units, mobile units and book displays.

Facilitate access to ICT and equipment

You can add private study carrels, group work spaces and separate meeting rooms with power and charging facilities into the design. We can also design furniture for fixed ICT facilities (PC or Mac), and printing and copying facilities as part of your fit-out.

KEY FEATURES

- Keep your book storage areas tidy and organised with shelving and storage systems designed around your needs
- Create comfortable, relaxed seating areas where students and staff can read and study in a variety of seating layouts
- We'll help you create an exciting, modern library with access to traditional and computerised research facilities

Administration

The Camerton collection offers an extensive choice of high quality, functional office furniture. This includes bench desking systems, storage units, and board room and meeting room furniture.

Keep your work safe, organised and easy to get to

We can supply a whole range of matching freestanding storage products. These include pedestals and filing cabinets, cupboards and tambour units with lateral filing systems and shelves and bookcases. We can also design and create bespoke and fitted storage systems. So whatever you need, we can help.

Stylish, hard-wearing desks

Our stylish Camerton desks make the most of your space and help you get the best from your staff. Elegant, modern leg designs with fixed tops, sliding tops, or DDA compliant height adjustable tops, can really make your offices look superb while being practical and accessible. The range includes an integral screen system that can add a splash of colour. You can also use it to mount monitor arms and accessories.

Mix and match

Create an office suite by incorporating meeting room, coffee and boardroom tables. Add excitement by choosing task and operator seating from our extensive range in a contrasting colour. We can also help with soft seating for breakout areas and dining furniture for staff canteens.

KEY FEATURES

- We work with you to design your new office to create a stylish office space that people enjoy working in
- We offer furniture in standard sizes, and we can create bespoke, matching desks and storage if you need us to
- We can integrate your ICT systems into the design to create a clutter-free environment that's a pleasure to work in

Staff Resources

We design comfortable, practical spaces where your staff can relax, unwind and prepare for seminars and lectures.

Everything your staff need

With desks, tea points, kitchenettes, soft seating and touchdown areas, your staff will have everything they need to take a much needed break and catch up on seminar and lecture planning.

Want your resources in one place or for each department?

Whatever your approach, we can design, create and fit resource areas to meet your brief.

Access to ICT can be part of the brief

Create attractive staff work areas with access to fixed ICT or provide workspaces with power and charging units ready for staff to use their own tech.

KEY FEATURES

- You can choose from a range of filing and storage units
- We can include ICT resources as part of your fit-out
- Our bench workstations come with optional privacy screens and built-in cable management to keep wires tucked away and out of sight

Receptions

Are you making the best first impression? We'll help you convey the right message about your college or university department, and create a comfortable, functional space for your staff to work in.

Give the right first impression

Your reception needs to be friendly, welcoming, stylish and comfortable. It needs to convey the right message about your department. We work with you from the start to make sure you get just that.

Designed to house admin and security systems

We can design your new reception to house ICT systems, cable management, lighting and storage. If you need us to make room in the design for your security and monitoring systems, we can do that too.

Get a more secure and DDA-approved reception

To help you meet DDA standards, we add multi-level counters to your design. You can also add lockable toughened glass screens as an optional extra for added safety and security.

We can apply all the finishing touches

From modern and more traditional seating and décor to cabinets and display boards, we make sure you have everything you need to create an inviting space for your guests.

KEY FEATURES

- We design your new reception with multi-level counters to help you comply with DDA standards
- Make your reception safer and more secure with optional lockable toughened glass screens
- We can integrate your security and monitoring systems into your design

Changing & Locker Rooms

We design and fit hard-wearing changing room furniture that meets DDA, hygiene and Sport England standards. We can also supply and fit locker systems to keep personal effects safe and secure.

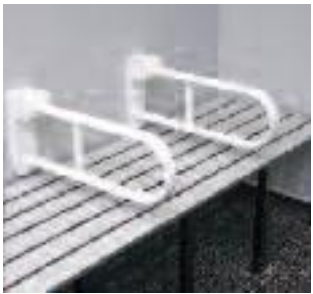

We make use of every inch of available space

We know changing room space is at a premium within your college or university. So we carefully plan your layout to help you save money on unnecessary costs.

We help you meet DDA and hygiene standards

To help you cater for students with disabilities or special needs, we offer DDA-compliant changing facilities. You also get expert advice from the start on how to meet hygiene and accessibility standards.

Long-lasting and resistant to moisture

We use Trespa lams and powder-coated metal frameworks. So your cloakroom furniture protects against water damage and can withstand day-to-day use.

Tough, anti-bacterial lockers

You can choose steel, shock proof and pod lockers in a range of styles and colours as part of your fit-out. Our steel locker systems are powder-coated with antibacterial DuPont Active-Coat as standard.

KEY FEATURES

- To help you comply with the DDA, we offer changing facilities for students with disabilities or special needs
- Choose from a range of lockers and storage solutions to help keep your cloakroom neat and tidy

Residential

Give your students another reason to study at your college or university. We can supply you with everything you need to create comfy, inviting living spaces.

You can source everything through us

We can supply everything from bed frames and mattresses to wardrobes, study desks and storage units. We can even fit out your kitchens and we are able to provide a range of white built in or freestanding goods.

Get furniture that's guaranteed to last

We only supply furniture made from the best quality materials and we guarantee our manufactured products for 5 years so you know it will stand up to day-to-day use in your college or university.

Choose from a huge range of colours and styles

We have a massive range of colours available, whether you're after bright, modern furniture or more traditional styles like our oak range.

Add built-in charging for your students' accessories

We can supply furniture with integrated charging. So your students can charge their laptops, tablets, smart phones and portable media players in one place.

Seating for Learning

You can choose from our huge range of chairs and seats in any shape, style and colour to match your layout and décor.

We know that we can impact on the environment locally, regionally, nationally and even globally. That’s why we do all we can to be greener and cut down our footprint.

How do we help the environment?

- We take great care in choosing the right raw materials and most sustainable production methods
- We cut down on waste, pollution, solvents and material consumption as much as possible during all aspects of our manufacturing process
- We buy from eco-friendly suppliers and source timber products from managed, sustainable forests
- We work to cut down on harmful emissions and transportation fuel
- We comply with all current legislation and continue to address environmental challenges through our commitment to the principle of ISO 14001
- We constantly review and assess our processes as we know how important this is for our neighbours, our customers, our people and society at large
- We promote recycling to our customers and suppliers
- Our corporate ethos is based on doing the right thing

Claughtons

Product specification

We’ve made every effort to make sure that the information in this brochure is correct at the time of going to press. We reserve the right to alter product specification and design without notice.

Orders and returns

How do I confirm my order?

Before we can start to work on your order, please confirm it in writing (preferably in email) with an official purchase order number.

We’ll then send you an order confirmation with the prices and product specification. Please make sure you check these details for any errors or anything missing on your order. If there’s something not quite right, just give us a quick call or email us to let us know.

Do I need to sign for my order?

Yes, we’ll ask you to sign for your goods when we deliver them. If you spot any errors, damages or shortfalls with your order, please let us know within three working days.

Can I cancel my order?

Yes, you can cancel your order before production has started. But if you cancel after production has started, then we’ll have to charge you in full.

Do you accept returns?

Yes, if all or part of your order is defective during the warranty period, then you can return it to us and we’ll repair or replace it for you.

Please let us know in writing as soon as possible if your order is defective under your warranty and you need to return it.

Payment

Payment terms

Your goods will remain the property of Claughtons until you’ve paid for them in full. You must adhere to the payment terms that are set out in your contract. If, however, you make any late payments, you may be liable for late payment penalties.

Customer credit

For a copy of customer credit terms, please get in touch with our finance department through accountsadmin@claughtons.com or call us on 01482 623952.

Delivery & installation

When will my order be delivered?

This depends on what you’ve ordered. We’ll give you an estimated delivery date when you order.

We stick to the delivery dates we quote wherever possible. But,

sometimes, things out of our control can affect when you get your goods. Please note that we’re not responsible for any unforeseen circumstances that delay your order.

Each delivery and installation will be co-ordinated by a project manager, who’ll work with you to plan the schedule of onsite works. They’ll also be responsible for supplying you with risk assessments, data care manuals and any other information you ask for.

How much do you charge for delivery and installation?

This depends on each individual order. We’ll agree your delivery and installation charges with you when you place your order.

5 year warranty

Once your installation is complete and everything’s been approved, we give you a 5 year warranty against manufacturing defects for total peace of mind.

Please note that other suppliers’ warranties may differ. To find out more, call us on 01482 323235 or email info@claughtons.com
